

MY DOCTORS AND THERAPISTS

I have a great team of doctors that are doing everything that they can to help me with my illness and my brain. My mom and dad have recently decided to start me back in therapy. Mom is taking me to meet with my new therapist on August 11th. Mom will be sure to update you when she has her contact information. Here is the contact information for my doctors.

(For each doctor or therapist, list a name, clinic association, address and phone number)
